Jesús Enrique Mendoza López

(52) - 229-521-5534 · kike.mendoza9978@gmail.com - UX/UI Designer

Experience

Sisu Technologies
UX Designer

Remote
August 2022 - Present

I am an essential contributor to UX design projects, collaborating across diverse teams to improve web applications for agricultural enterprises and create innovative features for a versatile marketing app used by businesses and organizations. Engaging closely with development and design teams, I actively contribute throughout various phases of the design process and Agile methodology. My expertise includes designing seamless user experiences for mobile and web platforms, leveraging HTML, CSS, Sass, Javascript, and React to build UI components. Additionally, I utilize component libraries like PrimeReact to enhance efficiency and maintain consistency in development.

Freelance
Designer

Remote
January 2020 - August 2022

During my freelance tenure, I remotely designed interactive navbar interactions for a travel agency website and created visually appealing 3D character models for an electricity business mascot.

Pekxel Studio
UX Designer intern

Puebla, Mexico
January 2019 - May 2019

As a UX Designer intern, I produced engaging animations and 3D character models for landing pages, while also contributing to UX research initiatives at a museum to improve visitor experience.

Education

The Odin Project
Web developer

Remote
May 2022 - Present

Universidad Iberoamericana Puebla
Interaction Design and Animation BA

Remote
August 2015 - May 2019
